I have been an enrolled agent for over 20 years. I already have to do 26 CE hours yearly for the IRS. I don't mind adding another 4 for OR but it seems silly that the requirements are more stringent for a State than a Federal department. Most states exempt Enrolled agents from further requirements since we are already under the requirements of the IRS. I believe if we are in good standing with the IRS we should be exempt from further state requirements.
