NO on HB 4123

Protecting Illegal Aliens and NOT protecting LEGAL Oregonians is wrong on every level and in rebellion to the Federal Government. We are in opposition to this. Again, I cannot say it better than Chad Michelson:

State legislators it's time for you to get in touch with the laws of the land, the constitution, and the way the law works. Federal law trumps state law as set up under the US constitution and affirmed by the US Supreme Court. This is called the supremacy clause. The federal laws reign supreme and nullify any state laws that are in direct conflict with the laws as made and passed by congress. When states refuse to honor federal laws then they are in rebellion against America's constitutional government and its framework and are acting in an unconstitutional and unlawful manner. When states are acting this way and then ban together to go against the federal government then they have become states united in a confederation/confederacy. The last time democrats did this with the states that they controlled stating their sovereignty from the federal government of America and that their states rights and interests trumped that of the federal government that they disagreed with and would not comply with, a civil war was created and fought. These laws you are seeking to pass to further entrench and beef up Oregon's sanctuary status to rebel against the federal government and the laws as created, passed, and enacted by the US congress are futile and will not pass constitutional and judicial muster.

WE THE PEOPLE do NOT want to be "Sanctuary State".
