

Submitter: Tonia Moro

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure, Appointment or Topic: SB1522

Dear Chair Pham and Committee Members:

You can't do this. Nope, especially in a short session; and without notice - even despite the egregious lack of merit - to proceed is a procedural injustice and you should reject it for that reason alone. You want another study, do a study. You think the December 2025 Land Conservation and Development Commission adopted rules implementing the Oregon Housing Needs Analysis may be insufficient, do a another study.

You should not move this -1 forward. It decimates the core foundation of Oregon 's land use system. It will bring the sprawl we have uniquely avoided. It will consume our agricultural land at a time when we need to double down on preserving it to enable development of local food supply chains to replace unsustainable regional, national and global supplies. It lacks the serious thought and creativity that our land system is built upon and deserves.

You must say “no” to SB 1522-1.

Sincerely,

Tonia Moro
