

Submitter: Sharon Black

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure, Appointment or Topic: SB1522

It would be irresponsible for the state to change the urban growth boundaries for the following reasons:

- \*Land was purchased and developed based on the zoning at the time of purchase

- \*Families, farms and rural activities depend on the zoning that existed at the time of purchase

- \* Oregon depends on rural areas for food, air quality and desired living conditions

- \* Moving industry into rural areas may help the large companies but not our communities

- \*Oregon has been a quality of life state not a piece of earth for high tech projects to take over with super sized data centers

- \* if ground is used in careful ways it should support residents with well paying jobs, good living conditions including schools, not giant tight industrial buildings

- \* This is Oregon please be very careful to keep it a beautiful, green and friendly place for its citizens not an area overran by large data centers and other industrial buildings

- \*Set your priorities around excellence in land use, good jobs, and happy residents
