Measure, Appointment or Topic: HB4035

We have a real affordability crisis that has been pervasive and persistent. I believe we should do something about it; we should show everyone that they matter, that just because they do not have high hourly rate wage jobs does not exclude them from the American dream; to own their own home. I believe this affordability crisis has extended beyond the low wage earners and is affecting middle class Americans too. Many people are suffering, barely able to get by, no matter how many hours of work they put in. I implore you to please consider this bill and all of those beyond it that will help the people of our state.
