I am writing to strongly oppose SB 1522-1

Oregon as we know it is the green, agricultural state that we love because of some of the country's most progressive UGB laws. With some of the country's best soil our state enjoys a vibrant agricultural economy that is essential to our success. Once paved over, these forests and this rich soil can't be reclaimed. They disappear. The notion that we would remove the protection that UGBs provide is feckless, short-sighted and flies in the face of everything we love and cherish about Oregon. I am begging you to oppose this bill with a full throated response. Shame on its authors.
