

# Individual Development Accounts (IDAs)

*The Oregon Legislature's proven solution for housing stability*

Since 1999, IDAs have enabled over 17,000 Oregonians, in 35 of Oregon's 36 counties, to leverage the power of their own savings for self-defined goals – including homeownership, education, small businesses, vehicles and emergency savings.

We call on the legislature to make a \$10 million general fund investment in the IDA program in 2024 – empowering a total of 2,200 families across the state to invest in their own futures by enrolling in an IDA during the current biennium.
