Measure, Appointment or Topic: HB2138

I'd like to oppose the base bill and offer support for the -4. I live in North Albany where a significant development is planned without any regard to traffic, parking or neighborhood live ability has been considered. I'm all for infill as an answer to our housing shortage but what's been created is a legged stool. Please consider a well designed comprehensive approach instead of a one size fits none politically expedient answer most of you won't have to live with.
