

Submitter: Klaus Gibson  
On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4

NO COMMERCIAL DEVELOPMENT OF FOUNDATION FARMLAND! Here we go again! Some of the most fertile farmland in the world is threatened to be paved over for commercial development by moneyed influential land speculators.

I passionately hope that Governor Tom McCall's legacy will prevail. No future megapolis/urban sprawl of the area between Portland and Salem.

I grew up in Lakewood, Wa. In the 60's one could drive from Tacoma to Seattle with forest and open space until the Boeing plant in a valley below I-5 on the very south end of the Seattle area. Today there are no open spaces. It is a plastered over concrete jungle.

**DO NOT ALLOW THIS TO HAPPEN TO THIS FERTILE FARMLAND SOUTH OF THE WILLAMETTE RIVER TO SALEM!**

Please remove Wilsonville from Section 10 of SB4

Thank you.
