

Submitter: Blaine Ackley  
On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4

Chairs Sollman and Bynam,  
Distinguished Members of the Committee,  
Please remember that without proper supervision and transparency, executives of  
the OLCC personally enriched themselves at the expense of taxpayers and that was  
just about bottles of bourbon.  
Now imagine no oversight, supervision, or transparency with \$210 million dollars?  
What could go wrong?  
Just about everything and yet this bill still has no provisions for transparency,  
supervision or oversight!  
Is this what you want to go down in history for? Assisting in developing the framework  
for a multi million dollar public scam?  
I don't think so. I urge you to create some oversight for this important and in your  
words, once in a lifetime opportunity.
