

Submitter: Rosa Wang

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

We are still recovering from the economic impacts of COVID, massive unemployment and instability. We've seen an increase in homelessness and general suffering.

We're seeing inflation and having to stretch our money more and more as the cost of living skyrockets. We need to cap rent increases to prevent more people from becoming homeless and hungry and suffering and dying on the streets. Please choose compassion for the poor and vulnerable over greed for those who have plenty, in these hard times.
