

Dear Chair Pham, Vice-Chair Anderson, and Members of the Committee,

Thank you for the opportunity to comment on SB 684. My name is Helena Birecki. I moved from Tillamook County to Portland in September, and am a Pilates teacher who believes in, studies, and advocates for climate action and justice.

I write today to **Support the -2 amendment** to SB 684, though I wish it specifically addressed housing needs below 60% of median income in addition to housing needs below 80% of median income. Please see the chart below which is a screenshot from the Oregon DLCD Housing Needs Analysis which shows that **all of the housing units which will or are likely to require public support are in the under 80% AMI range**.

I oppose the -1 amendment which refers to affordability as up to 120% of the median income. Housing affordable to a person who makes 120% or 110% or even 105% of area median income is by definition unaffordable to more than half of the population of that area.

120% of area median income is what the market builds by itself. Please don't subsidize it.

Please DO support housing that Oregon's Department of Land Conservation and Development identified as requiring public support. Pass the HB 684 with the -2 amendment.

Thank you for your leadership,  
Helena Birecki

% of Units	76%	19%	5%	100%	

**29% of units will require public support**

**An additional 17% is likely to require public support**

*Oregon DLCD Regional Housing Needs Analysis, pg 12<sup>1</sup>* shows that all of the units that will or are likely to require public support are in the low income—under 80% AMI—range.
