

Submitter: Marjorie Walters  
On Behalf Of: our environment  
Committee: House Committee On Rules  
Measure: HB3414

We are on the verge of disastrous climate change that will affect the quality of our lives, as well as the animals and plants who are in our environment. To act now as if we have no responsibility for mitigating this change, and in fact, choosing a rollback, thinking about our environment in ways that already have been shown to cause great damage when used previously, is unconscionable. Please vote no on the legislation.  
Thank you.

Marjorie Walters
