

Submitter: Joshua Stephens

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Hello,

I oppose this measure because it allows select individuals to break their end of the "social contract" of living in a shared space (city or town) and consuming public resources of which many do not desire to contribute to. It encourages the blight we keep inviting into our communities. It further relieves those experiencing homelessness of accountability. Let's put our energy into actual solutions and not showboat the idea that people are told they "cannot exist." We are already encouraging people to kill themselves by being so lax on measure 110.

Thanks,  
Josh
