

Submitter: Christine Whitby  
On Behalf Of: Housing providers  
Committee: Senate Committee On Housing and Development  
Measure: SB611

We are supporting this whole town!! All other businesses that I need to support are raising their prices. Can you tell a grocery store not to raise costs? Tell the handyman whose hourly rate has doubled, the electricians, plumbers, hardware stores; tell everyone else that they can not raise their prices to cover their costs. If someone is truly hungry, can they go into a grocery store and just start eating? No. They need to pay for it. Why are landlords supposed to be the only large hearted, selfless folks in business not for profit, but to take a loss? We are supporting this whole town!!! Wages must rise, along with everything else, or no one should be able to raise their prices. We should all have to run out business investment at a loss.
