

I have personally benefited from the IDA program. I had a chance to learn how to budget and plan my savings to reach a goal. I was able to build up a savings account that for some reason I was not able to successfully do before this program. I am now a homeowner and really would like to see others get the help they need to succeed this way.

Please support the IDA initiative Tax Credit so that others can benefit that would not be able to do so otherwise. Thank you,

Stella
