Measure: HB3501

Please stop enabling people! It's not working. Only making things worse for EVERYONE! Most of the homeless people are addicts and or mentally ill. They need help with these issues. There is a great need for mental health and addiction services . As a person who is a recovering addict and provides help for people who want it as much as we can; we know 1st hand the lack of services for addiction and mental health. This is root of the problem. Doing any other things is NOT helping. Providing people anything that enables them to stay on the street is NOT helping! Providing any other services is NOT helping! Stop spending tax payers money irresponsibly!
