

Submitter: Robert Orman  
On Behalf Of:  
Committee: Senate Committee On Health Care  
Measure: SB1076

The intention of this bill is incredible and I fully believe in the end result it's seeking to achieve. The issue I have with it is that it's putting an extra burden on hospitals without additional funding, structure, or infrastructure. As an emergency physician, I've seen firsthand the consequences of unfunded mandates on hospitals and the end result is more strain on a system that is already stretched over capacity. Please do not enact this bill in its current form. If there were additional funding, staff, and resources provided to make it work beyond the current system constraints, I'd be all for it.
