

Submitter: Steve Kennett  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Now is not the time to unleash development onto fertile farmland because we -- the royal we -- do not know how to build up and not out. All of Europe can do it, why are we so tied in a knot. We have a land use system that has worked, though not flawlessly. Still, to cave to developers who have yet to enter the 21st Century is not a solution to the housing crisis or our economic challenges. Let's grow up -- be mature. Thanks you.
