

Submitter: Keith Comess  
On Behalf Of: self and family  
Committee: House Committee On Rules  
Measure: HB3414

This proposal simply perpetuates and attempts to incentivize speculative building by investment trusts and others, many of whom are not located in Oregon. It ignores issues such as essentially prohibitive interest rates and, rather than addressing the core issues, it assumes the state can "build its way out of a problem." In short, it's a posture; not a solution. We oppose this measure
