

Submitter: Robert Dudley  
On Behalf Of: Tax paying citizens  
Committee: House Committee On Housing and Homelessness  
Measure: HB3501

I oppose this proposed law for many reasons. The state of Oregon compounded this mess with the passage of measure 110. The majority of those "experiencing homelessness" are there because of their own doing (bad life decisions). This bill does not address the bad actions (littering, public drug use, public sex acts, crapping in public, etc) they make that has a negative effect on the tax paying public. Nor does it require them to address thier bad behavior. Offering them services does not work as they choose that lifestyle and refuse services offered. You are destroying Oregon further with this bill. Jackson County is a cesspool of homelessness and has already been providing services which so many refuse. Our Bear Creek Greenway and Medford's Hawthorne Park have been plagued with this for years. This bill will allow an increase in the destruction of so many counties and cities.

Also, hiding amendments to other laws in this bill is disingenuous to Oregon business owners and thier employees. You extremist and your alies in the legislature along with outside organizations pushing this bad law are the reason Oregon is in decline.

Robert Dudley
