Being the owner of a EFU property my wife and I support this bill. Having owned the property for over 30 years we have watched as neighboring properties be taken over and rebuilt into huge estates and become destination resorts with little to no regard to farming practices. This seems to be the trend in the last 10-15 yrs and only seems to be getting worse. There is a lot of money coming into the State of Oregon and a high demand for "rural" living but not for farming practices.
