

I am 91 years old & in the Holiday Farm Fire we lost my home, 60 acres of timber, a Cabin that we rented & 50% damage to a Mobile Home that we also rented out. We keep our rents as low as posable & expect that after reconstruction they will be higher but still the lowest in the community. All 3 homes are on property zoned F2 and the rentals are in the flood plan. I do not think Lane County can get all the massive amount of Land Use for this done in one year much less get it rebuilt in that amount of time

The time this proposal gives us will be very helpful in rebuilding

Thank you
