I have fallin thru the cracks, A state Veterans Admin continuing to block our disabilities. I am rated at 30% and have fought ME/cfs since the 1970s. Over a decade ago I asked for help. Now ME/cfs is consistent with Gulf War Syndrome but not before or after. Toxins and vaccines. Vaccines have saved billions. But none are 100% safe. Please help us statewide. The toxins onboard military areas are listed in the EPA. The VA has improved greatly but as well over a decade ago I was refused treatment for a tickbite with the bullseye rash. I'm going to stop here. Please help us, the VA cant or wont
