

Submitter: Ana Pasc  
On Behalf Of: Ana's Adult Care Home  
Committee: Senate Committee On Human Services  
Measure: SB1591

My name is Ana Pasc . I have been running an adult care home for the last 30 years I am in support of adding capacity to our homes from 5 beds to 6-7 beds. Our elderly community is growing and in great need of places that can provide care in loving homelike environment. Please help by providing that opportunity for business and residents to meet each other's needs. A rate increase in Medicaid pay clients would help business thrive not just survive. Please use your position to help do a good deed for both the community and the business as well. Never know when this good deed will come around and we will benefit ourselves from receiving good care in a great home

.
