

Submitter: Glenna Hayes

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1533

Dear legislators, I am writing to you today in support of SB 1533. As Oregon and the world's climate changes we need to help people be prepared for the wildfires and bad air quality. Indigenous communities have been historically under supported and deserve to receive the support needed to have access to clean air and water. With how there have been treaty violations from our country and big oil companies digging up their land this is the least we can do to provide the equipment they need. Thank you for your time and consideration of passing SB 1533 and helping indigenous communities get the access they need for clean air
