I live in Seminole Estates, a senior manufactured home community. I have been here a total of 19 years. Just like living in an apartment, the rent continually going up, unfortunately our Social Security monthly does not goes up enough to cover our rent increase let alone our utilities, medical and living expense. We are being pushed out of our homes dues to the rent increase, we will be living in our cars (homeless) for those that do not have any family to go to or want to!!!!

This needs to have a cap put on raising senior living manufactured home communities!!!!
