Taxpayer dollars used to benefit others. My tax dollars conferring financial gifts in the form of "Grants" to support the entities and causes you have supposedly read.

You will note I do not get "diddly-squat" for my tax dollars seized from my wallet and unceremoniously given to others by the almost brain-dead legislature.

When I look at the seafood beneficiaries to my compelled tax dollar donations, I can see myself, "...Sittin' on the dock by the bay watching my tax dollars float away..."

The person who wants to solve the Housing crisis can go pound salt.

\*\*I have a better idea. Direct the appropriate state agency to add two "boxes" on our yearly Oregon State Income Tax form. One "box" should have the question, "Check here if you want to donate your Tax return to the State of Oregon." The other "Box" should state, "Check here if...you want all of your Tax return money, right now."

I will buy seafood when I visit the coast.

Oregonians can find their own housing solutions without my help and or my money.

On a completely different matter...When it comes to wasting taxpayer dollars, check out this abomination.
