Measure, Appointment or Topic: SB1030  
**VOTE NO ON SB1030!!!!**

My mom's health was affected by a flu vaccine 18 months ago in assisted living. She was struggling with dementia so when the nurse approached her about taking the flu vaccine, she said yes when she would have refused it before. She ceased eating and drinking very little for the next nine days and was placed on hospice. Then she was confused what had happened and started eating again but was weakened and not able to get out of bed on her own for the next 15 months.

Family was uninformed about the vaccine for months after.

Now this bill is recommending MANDATORY VACCINES!?! Again is the intent to eliminate the elderly? And for what? Make more money for Pharma?

**STOP WITH THE GOVERNMENT OVERREACH!!!!!**
