

Submitter: Dawn Vargas
On Behalf Of:
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or HB2961
Topic:

Dear Chair Lively, Vice-Chair Gamba, Vice-Chair Levy, and Members of the House Committee on Climate, Energy, and Environment,

I am writing to express my support for House Bill 2961, which aims to increase the required electrical service capacity for electric vehicle (EV) charging in new commercial, multifamily, and mixed-use buildings. It is important to support sustainable transportation and ensure a cleaner environment for our youth. By expanding access to EV charging stations, we can encourage more residents to adopt electric vehicles, thereby reducing our reliance on fossil fuels and improving air quality. This initiative aligns with Oregon's environmental goals and addresses the practical needs of EV owners. We need electric transportation to be more accessible and convenient. Please do not support putting profit from fossil fuels ahead of a clean planet for our children.

Sincerely,

Dawn 'Ilene' Vargas
