Committee: House Committee On Housing and Homelessness  
Measure: HB3501

Who in their "right" mind would introduce such a bill? And the title of the bill is meaningless. Right to rest? How about if Homeless want the right to participate in society and use public spaces that are funded by those who are gutting it out every day working, then create a bill to find these individuals jobs, like taking care of public spaces? When these individuals who have found themselves homeless, whether it be due to choices in life they made, or not, let's get them a job being a productive citizen.

I'm sympathetic to the homeless crisis, and I'm paying a lot of extra tax to METRO to help subsidize housing for less unfortunate in Metro area, and our governor is also using our tax dollars to improve the homeless situation. This bill is not a solution to anything. Pull this bill, and get real.
