

Submitter: Ryan Rustrum

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This will do nothing but ENABLE people to continue to take advantage of hard earning tax payers money. I live in Downtown Portland, I ask if people that are homeless if they need help and they tell me they rather sleep on the streets and smoke Fentanyl all day! These people are drug addicts that rather live in the streets than to find housing and become contributing members of society. I've seen the soft on crime attitude in Portland ruin the city, people shooting up drugs in front of kids walking by, people talking to themselves, human waste all over the streets, graffiti everywhere, random violent attacks on pedestrians, businesess being broken into, car thefts ect. This all will increase with this new Bill! I plead you to not pass this as it will just continue the downfall of our once great state and give people another excuse to not help themselves.
