Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB2698

Homeownership in its various forms remains one of the most reliable and certain ways of building wealth and communities. Barriers to homeownership continue to increase as the finite supply of land results in a more binary world of haves and have-nots. We need to reverse this trend and promote homeownership that builds communities and allows people to lift themselves out of poverty and not rely on constant subsidies to live and survive.
