To: Oregons State Senators and Legislators

As a resident of Hillsboro, I have supported the Urban Growth Plan under HB 1293. However, I now believe the environmental factions that already received 90% control of Oregon's available land are using a "loophole" they have conceived to block further development of the 10% of land set aside for Urban Growth. We need to **pass HB 4026** to permit HB 1283 to work for needed expansion and not be blocked by voter referendums which were never intended under HB 1293.
