Committee: Senate Committee On Housing and Development  
Measure: SB847

Hello,

I'd just like to say I support, as a resident of Portland, a lot of what this bill does. As usual, I support most measures that promote the building of dense, compact communities. I would like to see the end of suburban sprawl. I would also love to see more support for low income folks and the houseless and see barriers to building abundant housing go away. As a resident of Portland and Oregon I would like to reiterate that I'd love to see new legislation promoting dense, compact communities connected by robust public transit.

Thank you,  
Jonathan Greenwood
