On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4  
No Chip Plant on Designated Farm Land

We are against building a chip on heritage farm land that is located outside the Urban Growth Boundary. The Boone Bridge cannot sustain an increase in traffic, the necessary infrastructure is not in place, and residents living nearby have not been consulted.

Discussions and votes in recent years have all supported protecting French Prairie farm land, AND not changing the Urban Growth Boundary. Please let the citizens wishes prevail against land owners who want to make a big profit to the detriment of those who live here.
