Thank you for reading my testimony. I support SB83 even though it does not do enough to address the big problems with SB762 including the wildfire hazard map. It is wrong to put the burden for wildfire costs on private property owners, hurt property values, and make it hard to insure your property. The state and federal lands are not managed properly and haven't been for years. As a former wildland fire fighter, I know this to be true. Both SB762 and SB80 need to be completely repealed. SB83 is a step in the right direction, but hopefully SB678 and/or HB3944 will pass. Thank you again.
