Committee: House Committee On Housing and Homelessness

Measure: HB3501

I urge you to vote no to this measure as Portland's homelessness has gotten out of control. My neighborhood has disruptive members of the homeless community that are not good stewards of this family-friendly neighborhood. There is human feces, needles, condoms, and RVs are broken down on side streets. This is not acceptable. We need to get people off the streets, not enable them to stay on the streets. What is at risk is the safety, livability, and viability of the entire city of Portland. I strongly oppose this bill.
