

Submitter:

David Tetrick

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure, Appointment or Topic: SB1522

Dear Senate Committee on Housing and Development, I would like to testify in support of SB 1522-1 on the basis that it increases the rationality of our land use system by removing an outdated consideration of soil type and existing use for expansions of urban growth boundaries. This bill will improve the financial situation of cities around the state and help to advance our land use goals of walkable and dense urban forms that support population growth and economic opportunity while protecting the ecological functions of our natural resources.
