

Submitter: Scott Love

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

This bill is a very bad idea. We cannot house Oregonians at the expense of those providing the housing. It is an impossible burden on small landlords like me who need to make repairs and maintenance which will be impossible to afford with such a low cap on rents. THis will decrease the housing supply and make it harder for businesses to grow.
