Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or HB2961
Topic:

I strongly support HB 2961 that will provide the opportunity for renters and other tenants of multi-unit buildings to make the transition to EVs. It is daunting for a renter to contemplate buying an EV or plug-in hybrid if the availability of apartments with charging capacity is so low. This legislation will only apply to new buildings above a certain size, but it is an effective step to help Oregon reach its climate goals.
