Grants Pass, Oregon

I am a current resident of Oxford House Reclamation in Grants Pass, Oregon

I oppose bill HB 2239

The certification process and standards of Oxford House Incorporated should be held on equal footing as the NARR certification.

I have maintained residency within an Oxford House for 3 Years. All forms of Recovery Housing are essential in providing safe haven for recovering alcoholics and addicts. Oxford House is the true Democratic, Self Supportive Model, **of one person in recovery helping another** and this continues to be a life changing opportunity for several throughout the State of Oregon. Currently Oxford House has 236 houses in 24 counties serving over 2000 members. We 2000 members of Oxford House know our model is equally important for the opportunity to grow as law abiding citizens no longer suffering in active use of substances.
