Wow such hypocrites we have in Salem. So Sen. Gelser Blouin lives in a home that is 3684 SF. What size was the house that her parents lived in out in the Crescent Valley area that no doubt had a farm designation? Was it 10,000 sf? More?? How large is the "BARN" they built on the property? What a joke. Not even a barn that would ever see animals and the excrement they leave in a barn. Acres Gaming amassed a lot of money so they could build a mega house but you want to limit folks to a more modest house? Then look at Dan Rayfield who lives in a treed area of Corvallis. His home is 3,074 SF. Stop being such effing hypocrites and realize that no one should be limited in what size house they might NEED for their family. So tired of those in power calling the shots for what they can build but not what anyone else might need. Shame on this whoever has hidden behind this bill. This bill is that excrement that should be found in the ACRES barn.
