Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB2305

Oregon has moved to far in the direction of tenants rights at the expense of landlords ability to protect their investments. While fair and equitable rights for tenants is a good position as these increased demands are placed on landlords to support tenants the risk and costs of providing quality housing options for Oregonians becomes more tenuous. If you want to help solve Oregonians housing crisis please consider property owners rights to fairly and adequately supply this housing through quality rental opportunities.
