House Committee On Higher Education and Workforce
Development

Measure, Appointment or

HB3182

Topic:

Basic Needs programs are essential to the success of Oregon's college and university students. Many first-generation students and other populations often do not have the resources required to meet their basic needs. How can students be expected to learn complex concepts and develop highly-refined cognitive skills, let alone complete degrees, if they are struggling just to survive? Thank you for giving this important bill its due consideration.
