Chair & Committee Members,

I oppose this bill.

This will cost taxpayers \$\$ by the way of energy grants. It places a strain on landlords with very little benefit to the citizens of Oregon. Housing is in critical short supply and this is completely unnecessary, especially in areas that do not get high temps in the summer. One can take a cold shower, purchase a fan with a wet cloth on it or buy an individual room cooler. Taxpayers do not need to solve all the problems and we're tired of you wanting more and more of our tax dollars for things that can be resolved in other ways. We have a failing education system. What are you doing to fix teaching our youth basic skills?

Please do not pass this bill.
