I SUPPORT [HB 3084].

Creation of what amounts to as a "Restricted Use Fund" to fund the construction and maintenance of schools revenues, separate and distinct from using the "School Fund" is a good idea.

"Maintenance" costs are nebulously vague and ambiguous. Waste is almost an express guarantee. Unannounced financial and performance audits should be integral to monitor costs and success of "maintenance programs."

Mr. Oregon Concurs...The excess revenues from corporate income and excise taxes should be returned as the *kicker* was intended to work. Siphoning off these revenues for any other purpose, no matter how noble, is inflationary and makes Oregon 'business unfriendly.'
