House Committee on Labor and Workplace Standards

Senate Bill 426

Dear Chair Representative Grayber, Vice-Chairs Representatives Elmer and Munoz and members of the Committee:

It appears this non-sense of a legislative bill is passing. Just barely. At least there is some comfort in knowing there are some politicians in our legislative body that see the problems looming ahead with this bill.

Okay, hold me, as a property owner, responsible for whomever I hire as a contractor to pay his crew. Thanks a lot for nothing. Can I expect to pay the mechanics who work in the shop that repairs my truck next? Are grocery store clerks to follow.

Oregon seems to fast getting things backwards in the state. So I will just stand by and watch politicians such as the sponsors and supporters of legislation such as this - the smartest guys & gals in the room, drag us down to California standards.

Thank you,
Richard Wisner
