I agree that we need to protect our community and care for our people. We need to focus on the Psychological care of individuals. A weapon is only a tool which can be used for good or evil. Whether that weapon is a car, a knife, a baseball bat, or a fire arm, it is a tool like a hammer which also could be a weapon. We must be addressing the problem and not simply the tools used by the problem. We need to address the massive depression problems, the broken home problems, and the violence problems.

This is not the correct way to protect the public.
