## **Re: Support for HB 3746**

Dear Chair Marsh, Vice-Chair Breese-Iverson, Vice-Chair Andersen and Members of the Committee:

My name is Juan A. Campos and I am writing on behalf of East County Housing/HOME Pathways to urge your strong support for HB 3746, critically-needed condo liability reform.

H.O.M.E. Pathways enhances housing opportunities through homeownership and default counseling services. This initiative supports underserved urban and rural communities across Gresham, Troutdale, Fairview, Wood Village, Sandy, Estacada, Corbett, Bridal Veil, Boring, Dodge Park, Damascus, Orient, Welches, and Brightwood. Our mission is to address housing challenges and promote financial stability through financial literacy, homebuyer education, down payment assistance, and foreclosure prevention. H.O.M.E. Pathways (**H**ome **O**wnership **M**eans **E**quity): Advancing Homeownership and Economic Stability by providing affordable homeownership opportunities, including condominiums, which are essential for first-time home buyers.

Oregon's condo defect liability statutes of limitations and repose are longer than many of our western state peers. Due to this extensive period of liability, developers, financiers and insurers take on much higher risk to build condominiums here. This heightened risk has greatly suppressed condo production in Oregon. The proportion of owner-occupied multifamily units permitted in this state is less than half the national average.

As of April 2024, Oregon is the fifth least affordable state for housing relative to median household income. Condos are more affordable entry points to homeownership. The median sale price of a condominium in Oregon was \$341,000 in 2023, 38 percent lower than the \$552,460 price of a single-family home. As the state implements policy changes to increase housing production, it needs to ensure that every housing type remains viable to produce. If Oregon does not address condo defect liability reform, a key component of entry-level homeownership opportunities will remain underrepresented in our state's housing mix.

East County Housing/HOME Pathways is part of the Unlocking Homeownership Coalition, a group of more than 40 nonprofit and for-profit organizations working together to expand first-time homeownership access for thousands of Oregonians.

Homeownership is the key to building household stability, generational wealth and strong communities, yet it remains out of reach for far too many Oregon households. We are pushing for smart, people-focused investments and policies in 2025 that will make a meaningful difference in addressing our state's housing crisis.

HB 3746 addresses Oregon's need for condo liability reform by enacting the following four key adjustments:

- Lower Risk – Reduce Oregon's statutes of limitations and repose to 6 years, to more closely align with CDL in other western states.
- Reduce Litigation – Establish a means for a developer to remedy a defect by an agreement with the claimant without going through litigation.
- Enact Informed Consent – Ensure that at least half of condo unit owners must vote in writing to proceed with litigation.
- Ensure Consumer Protection – Require special inspections for common defects and still allow claimant litigation to proceed if an agreement to remedy the defect cannot be reached with the developer.

HB 3746 strikes an appropriate balance between condo owners' consumer protections and developers' ability to expand production of this key entry-level homeownership type. We urge your strong support.

Thank you for your leadership and service,

Juan A. Campos | he/him/él | Director of Program Development
